

## PROJECT DESCRIPTION

### *Maid of the Mist Dry Dock Project*

**Location:**  
Niagara Falls,  
New York

**Client:**  
Parsons  
Brinckerhoff Inc.,

**Client Contact:**  
Mr. John Hubert,  
716 – 362-9169

***New Drydock looking east from Canada***

McMahon & Mann Consulting Engineers, P.C. and Parsons Brinckerhoff, Inc. developed design plans for a new dry dock for the Maid of the Mist vessels in the lower Niagara River just downstream of Niagara Falls.

The facility includes a 20 foot high reinforced concrete retaining wall at the water's edge, a 90 foot high permanent crane to lift the boats out of the water and new elevator access to the Niagara Gorge.
